

The National Primate Research Centers at the USA Science and Engineering Festival, April 27-29, Walter E. Washington Convention Center, Washington, D.C.

PEOPLE AND MONKEYS solving problems TOGETHER

<p>What is biomedical research?</p>	<p>Why do researchers use nonhuman primates?</p>	<p>Research with nonhuman primates has given us many life-saving vaccines and other treatments. Can you think of at least one disease that is very rare today thanks to nonhuman primate research?</p>
<p>Can you think of at least one disease that is more survivable thanks to nonhuman primate research?</p>	<p>Can anyone conduct biomedical research using nonhuman primates?</p>	<p>Which of the following are provided to our monkeys to enrich their lives: A) Swimming pools B) Halloween pumpkins C) Playground equipment D) Treats to eat</p>
